Innovative and results-driven **Lead Senior Software Engineer & Tech Lead** with **7+ years** of experience in **full-stack development** and **blockchain**. Proven track record in **architecting scalable solutions**, leading cross-functional teams, and delivering high-impact projects in **React, Node.js, Typescript, Python, PHP, and Web3** technologies. Strong background in **AWS, AI tools, authentication systems, and payment integrations**. Adept at driving the complete SDLC from planning to deployment while ensuring performance, security, and user-centric design

CORE SKILLS:

- **Frontend:** React.js, Next.js, Gatsby, Typescript, JavaScript, CSS, HTML
- **Backend:** Node.js, Python (Django, Flask), PHP, GraphQL, REST APIs
- **Blockchain/Web3:** Smart Contracts, Solidity, Wallet Integrations, NFT Platforms, DID Standards
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Cloud & DevOps:** AWS, CI/CD, Deployment Pipelines
- **Other Tools & Frameworks:** Selenium, BeautifulSoup, OpenCV, WordPress, Web Scraping
- **Soft Skills:** Team Leadership, Project Planning, Strategic System Design, Client Communication

WORKING EXPERIENCE (7+ Years):

- **Trakit Solutions** - Junior Python Developer.
- **Aiolos Solutions pvt.Ltd** - Software Developer
- **IndusVed Solutions** - Software Developer
- **Nexweave** - Full stack Software Developer
- **Quorix** - Lead Senior software engineer and Tech Lead

PROFESSIONAL POTENTIALITIES:

- Quick Learner
- Self Starter
- Ability to handle multiple functions
- To achieve best result

EDUCATION:

- **M.Sc. Computer Science**, Ruia College – Mumbai University, 2019
- **B.Sc. Computer Science**, SIWS College – Mumbai University, 2017
- Higher Secondary Education – Maharashtra State Board, 2014

PROFESSIONAL EXPERIENCE:

Project Name : Trakit Solutions

Company Name : Trakit Solutions

Technologies / Tools : Python, Selenium, Web Scrapping, Pytesseract, OpenCV

Role / Responsibilities : The responsibilities include making the availability of the data to the base system from various websites using the web scraping.

Company Name - Nexweave (<https://nexweave.com>)

Technologies / Tools : React, Nodejs, Typescript, Gatsby, Wordpress, Javascript

Role / Responsibilities :

1. Develop and design web based video personalization tools.
 2. Create a plugin for wordpress to integrate videos on the client side.
 3. Integrating Nexweave with various platforms.
 4. Design and develop chrome plugin for website personalization.
 5. Develop a NFT platform where users can create and mint NTfs directly from the platform.
 6. Develop a javascript sdk for integration personalized video, image and text on client platform
-

Project Name - BlocAuth

Technologies - Python, Django, Blockchain,

Role / Responsibilities : Tech lead

1. Architected and developed a complete authentication platform supporting both **Web2** (traditional login, OAuth) and **Web3** (wallet-based, decentralized identity) authentication methods.
 2. Led project planning from inception to deployment, including requirements gathering, technical design, and roadmap creation.
 3. Implemented industry-standard authentication protocols (OAuth2.0, JWT, OpenID Connect, DID standards) ensuring security, scalability, and compliance.
 4. Integrated authentication services with multiple projects.
 5. Produced technical documentation for architecture, APIs, and integration guidelines to support internal teams and external partners
 6. Collaborated with cross-functional teams to align authentication workflows with product goals and user experience.
-

Project Name - Abellfi (<https://abellfi.com>)

Technologies - NextJs, Blockchain

Role / Responsibilities : Technical Lead / Full-Stack Blockchain Developer

1. Led project planning and architecture design for a cryptocurrency trading platform
2. Developed frontend interfaces with a focus on responsiveness
3. Integrated blockchain functionalities for token transactions, wallet management, and direct interactions with smart contracts and canisters
4. Built an analytics dashboard to track trading metrics, portfolio performance, and market trends

Project Name - Contnt (<https://www.contnt.io>)

Technologies - NextJs, Blockchain

Role / Responsibilities : Technical Lead / Full-Stack Developer

1. Led project planning and architecture design for a subscription-based platform supporting video streaming, live chat, and creator monetization
 2. Developed frontend interfaces ensuring responsive design and seamless content playback
 3. Directed backend development team, managing API design, performance tuning, and feature delivery
 4. Integrated secure payment gateways for recurring subscriptions, payouts, and transaction reporting
 5. Oversaw digital asset management, ensuring secure storage, retrieval, and delivery of media content
 6. Managed complete technical delivery including code reviews, deployment pipelines, and scalability strategies
